

PUOI STAMPARE O RICOPIARE I SEGUENTI SCHEMI SUL QUADERNO.

RICORDA: frecce di colore diverso perché compiono azioni diverse addizione inverse (una moltiplica l'altra divide)!

The grid contains 20 individual math problems, each consisting of a multiplication and its inverse division. Red arrows indicate multiplication, and blue arrows indicate division. Each problem is set on a grid with a dotted line for the result.

$6 \times 3 = \dots$ $6 : 3 = \dots$	$4 \times 5 = \dots$ $4 : 5 = \dots$	$6 \times 6 = \dots$ $6 : 6 = \dots$	$5 \times 8 = \dots$ $5 : 8 = \dots$
$35 : 7 = \dots$ $35 \times 7 = \dots$	$30 : 6 = \dots$ $30 \times 6 = \dots$	$24 : 8 = \dots$ $24 \times 8 = \dots$	$90 : 10 = \dots$ $90 \times 10 = \dots$
$5 \times 4 = \dots$ $5 : 4 = \dots$	$5 \times 6 = \dots$ $5 : 6 = \dots$	$5 \times 3 = \dots$ $5 : 3 = \dots$	$5 \times 9 = \dots$ $5 : 9 = \dots$
$14 : 2 = \dots$ $14 \times 2 = \dots$	$40 : 4 = \dots$ $40 \times 4 = \dots$	$25 : 5 = \dots$ $25 \times 5 = \dots$	$28 : 7 = \dots$ $28 \times 7 = \dots$
